						494	Milkweed bug Hd				

To all our customers we want you to know we are trying very hard to get order out timely. Each year as we add to the collection and having everything readily available for a given order is an increasing challenge. Although we make the earrings on site it is becoming consistently the situation that we are short on something and we need two to three weeks for the next batch to make its way through. We are committed to using our business to celebrate wildlife and nature conservation. One of our motivating principals is to promote the awareness of biodiversity so it will continue to be a priority here to add as many new animals and plants to our list as we can manage. We want to thank you for your support and for being a conduit for our product. We really appreciate the opportunity you are providing for us to reach and accessorize the people who are doing important things out there, be they educators, scientists, naturalists or someone who loves nature enough to wear it on their ears.

Here are some reminders for returning and new buyers:

- It may take 3 weeks to get orders together. If your requested date is inside that time period let us know so we can try to send what we can in time. We do not do back orders but you can follow up with a second order.

We do not maintain records of credit card info and if this is your method of payment you will have to touch base with us by phone for payment each time. An invoice will be sent with the shipment or to the billing address. You can set up 30 day terms for billing by sending us references and/or give us a call.

- We ship by Priority Mail whenever possible because boxes are free, we can get packages to the PO easily, the cost is cheaper, and the shipping is usually 3 days or less. Thus we charge a flat 5 dollars for shipping by USPS which does not cover all the cost but we do appreciate the convenience and are able to pass some of the benefit back to you. If USPS does not deliver to your site then let us know if it is possible to address packages to a PO box where it will be held for you. If UPS or FedEx is your better option that is not a problem, however, we will need to charge full price for shipping plus the pick up fee which will add 12 or more dollars to the shipping cost.

For New and Inquiring Buyers:

Please contact us directly before placing your order. Either phone or email is fine. We can discuss all issues from payments to questions about a good start up quantity and displaying. We also like to know a little about your organization. We welcome business from non-profits and commercial whether on main street or in a visitor center. You do not have to have a permanent venue. For wholesale pricing we require that our product is resold and/or used in fundraising of some manner.

We need all our regular customers to sign a Pennsylvania sales tax exemption form which will establish that we are not required to collect sales tax from sales to you. We will send the form with the first order.

A W-9 for Jabebo LLC is available on request.

For approval on net-30 billing at start please provide references.
